

The figure is a scatter plot titled "ARIZONA". The vertical axis is labeled "LOS" and has numerical markers at 10 and 20. The plot area has a light green background with vertical stripes of varying shades. A central cluster of points is visible, with some points connected by lines to others. A yellow diamond marker is located near the center of the cluster.

The figure is a scatter plot titled "ARIZONA". The vertical axis is labeled "LOS" and has numerical markers at 10 and 20. The horizontal axis is labeled "ARIZONA". The plot area has a light green background with vertical stripes of varying shades. Data points are shown as solid dark red circles and open red circles. A central point is marked with a yellow diamond. Several lines connect points to this central diamond, indicating relationships or distances between them.
